

# Call of the Wild Weekend Workshop Saturday 2nd & Sunday 3rd March 2013 Cornwall

Healing and Communication  
with Elizabeth Whiter MHAO, IIZ, MNFSH

This is Blue who will be a guest teacher on the workshop. Picture Brian Clifford©

It gives me great pleasure to present this weekend workshop of animal healing and communication with birds of prey and companion animals at a beautiful rescue and rehabilitation sanctuary run by Sharon and Phil Bindon on the **Devon-Cornwall border**. Please visit [healinganimals.org](http://healinganimals.org) to see the video of the wonderful time we all had last year at the Call of the Wild Workshop.

\* I will be showing you various ways of healing animals from hands on to distant healing, connecting and telepathically linking with all sentient beings and developing your natural ability to communicate with all life. The power of meditation and being in the moment and applying creative visualisation skills to remain focused and grounded is vital for animal communication. On the Saturday we will be working with eagles, owls and birds of prey: Giving healing, handling them and observing them flying freely. You have an opportunity to practice the communication skills you have learnt during the day with these amazing birds. We will be learning basic wildlife husbandry skills and how to support the vital balance of nurturing nature. On the Sunday we will be honing our animal communication and healing skills with our canine and feline friends.

There will be plenty of hands-on work over the two days. Birds of Prey we will be working with include:

- \* Russian Steppe Eagle
- \* Barn Owls
- \* Asian Wood Owl
- \* Ferruginous Hawks
- \* Harris Hawks
- \* Turkmenian Eagle Owl
- \* Eurasian Eagle Owl
- \* African Spotted Eagle Owl
- \* Peregrine Falcon
- \* Peregrine/Saker Falcon
- \* Kestrel
- \* Sparrowhawk
- \* Tawny Owls
- \* Buzzard

The birds reside on a lovely 200 acre farm and are able to fly freely most days. Whilst most birds of prey are necessarily kept captive Phil and Sharon believe these magnificent birds need the freedom to express themselves and lead a full life: roosting and resting at the sanctuary combined with the freedom to hunt for their own food and stretch their wings out in the Cornish air. It is a magnificent sight to see any of these birds taking flight and coming home to roost on your glove.

**Booking form is below Testimonials**

## Testimonials for the Call of the Wild Weekend Workshop

Thoroughly enjoyable day and very interesting.  
Great mix of displays and handling / healing.  
Fantastic to see such considerate and knowledgeable guardians with such obviously strong bonds with their birds. Very educational and enjoyable day. An unusual and productive workshop where the birds gave us an insight into their personalities. Sharon, Phil and Liz were excellent hosts full of information with a good sense of humour.  
A rare experience. **Bill**

Well what a fabulous day. The birds, the weather and the lovely people I have met. Couldn't have been better and then it did!  
I was privileged to be chosen to hold Woody. WOW! She has such a lovely energy it makes me smile. She adores Sharon and Phil. Fantastic, fabulous, superb day. What more can I say. Thank you. **Becky.**

Had a wonderful experience with the birds. I love them all. A wonderful group of people and Phil & Sharon explained about the birds brilliantly. I loved watching the birds in flight. The healing experience was out of this world. Elizabeth's enthusiasm and knowledge is outstanding. The sun shone – what more can we ask for – Thank you. **Lisa**

Wonderfully interesting day – I haven't had much to do with Birds of Prey. It was good to know more about them and spend time with them. A good first experience of an animal healing workshop with Elizabeth. The mediation gave a very good feeling and a good preparation to the healing. I look forward to the next ..... Thank you. **Linda**

It was a great and wonderful day. Absolutely different to work with the energy of these birds. The place was wonderful and very enjoyable to work with a group of like minded souls. I liked everything. The discussions after the healing sessions were great confirmation for the groups. Thank you. **Sarah**

Wonderful day – Amazing to connect with these magical birds and to offer them healing. Thank you to Phil and Sharon for sharing their dedication. Thank you Liz for today. A great workshop and one I shall remember. I will take away a feeling of warmth and love from the whole group. **Deborah**

## **Location: Trenderway Farm, Pelynt, Nr Looe, PL13 2LY**
